Ventura International

About Us

Ventura International have worked on the side lines for various international companies over the past 20 years supporting them with the skills and quality they have deserved from a dynamic workforce. This has encouraged Ventura International to channel its expertise into establishing itself as an Independent Recruitment & Training Specialist through its vast and ever growing data portfolio of job seekers from around the world.

Be it Temporary, Contract or Permanent positions Ventura International provides a complete range of effective and flexible Human Resource Management services. Our in-house experts from various industries are able to cater to our customers requirements with efficiency and satisfaction of both selected candidates and employers.

We do not only abide by the rule of Visible Talent but look deeper into recruitment of Progressive Talent as well, this helps us build relationships in the work force therefore creating an active Personnel Specialist Portfolio.

We are the smart choice in your processes of recruitment, outsourcing and advisory services.

Our Services

Permanent Staffing

Permanent staffing solution refers to those Jobs when you as a company look to hire people on your payroll on a permanent basis. The success of a company is mostly driven by the quality of its human resource capital thus it becomes a prime focus for every organization to attract, develop and retain the best work force available in the market.

With our vibrant approach and without any compromise on the quality standards we aim to target the best talent for your specific needs.

Contract Staffing

The phenomenon of temporary or contract staffing has finally caught up globally after being rated as the quickest growing trend in Human Resource. Contract employees are offered to work at the customers sites for the amount of time that the customers need to utilize their skills. This time period is usually pre-specified or can be project based.

Training

High quality training programs are developed for our clients and individuals so that they are aware and up to date with the changes in processes and are then able to focus on what is essential to their organization i.e. trained and skilled personnel.

We provide training in the following fields:

- Training on operations, control system and maintenance of all sort of rotary equipment
- Vibration measurement, Reverse and Laser Alignment
- Industrial data analysis
- Quality improvement such as Six Sigma, Lean Manufacturing, Autonomous Maintenance etc.

- Integrated Management System – ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, ISO 27001, ISO 22001, IATF 16949 etc.

Our instructors have a vast expanse of knowledge and experience in all their respective fields and we impart these to our clients with in-depth training programs for every aspect of industry processes.

Training can be provided on site and at our partners training center in Dubai, Poland, UK and India which provides state of the art equipment and access to workshop and repair facilities, therefore our customers are never short of knowledge be it practical or theoretical.
